TRUSTEES AND OFFICERS.

GOVERNOR JAMES K. VARDAMAN.....President of the Board
HON. H. L. WHITFIELD.....Superintendent of Education
HON. W. J. MILLER.....Treasurer (Ex-Officio)
HON. GARRARD HARRIS.....Chairman Executive Committee
HON. JAMES MCCLURE.....Secretary of the Board of Trustees

EXECUTIVE COMMITTEE.

HON. GARRARD HARRIS, Chairman.....Jackson
J. G. SPENCER.....Port Gibson
HON. E. N. SCUDDER.....Vicksburg

TERMS EXPIRE FEBRUARY 1, 1906

~~HON. HENRY COHN~~.....Mispah

TERMS EXPIRE FEBRUARY 1, 1908.

HON. GARRARD HARRIS.....Jackson
HON. JAMES A. MCCLURE.....Fayette
HON. A. A. KINCANNON.....Columbus

TERMS EXPIRE FEBRUARY 1, 1910.

HON. —— NOAH.....Kosciusko
HON. E. N. SCUDDER.....Vicksburg
HON. J. G. SPENCER.....Port Gibson

TERMS EXPIRE FEBRUARY 1, 1912.

HON. J. T. SAVAGE.....Jackson
HON. W. G. BENBROOK.....Natchez
HON. ~~—— NOAH~~.....Kosciusko

FACULTY AND OFFICERS.

EXECUTIVE DEPARTMENT.

L. J. Rowan, B. S. ..... President and Professor

MATHEMATICAL DEPARTMENT.

M. S. Love ..... Professor
J. H. Powell, B. S. ..... Assistant Professor

ENGLISH DEPARTMENT.

J. C. Bullen, Ph. B. ..... Professor
P. S. Bowles. B. S. ..... Assistant Professor

NATURAL SCIENCE DEPARTMENT.

J. M. May, M. S., M. D. ..... Professor
A. H. Mevs, B. D. ..... Assistant Professor and Chaplain

HISTORY, CIVICS AND MORAL SCIENCE.

E. H. Triplett, D. D. ..... Professor

AGRICULTURAL DEPARTMENT.

E. H. Patton, B. S. ..... Professor
H. T. Tanner ..... Horticulture and Dairying

INDUSTRIAL DEPARTMENT.

E. R. Correll, B. S. ..... Carpentry
T. B. Helm ..... Blacksmithing
W. M. Douglass ..... Painting
M. W. Craig ..... Shoemaking

TUTORS TO BE ASSIGNED.

W. R. Wiley, W. W. Blackburn, H. T. Tanner.

Hon. H. E. Blakeslee ..... Secretary and Treasurer
Dr. J. M. May ..... College Physician
G. W. Comfort ..... Steward

WOMEN'S DEPARTMENT.

Mrs. R. W. Jackson ..... Matron
Mrs. L. E. Aray ..... Domestic Sciences
Miss Maggie Hazelette ..... Sewing
Nurse Training Department to be filled.

CALENDAR FOR 1906-07.

1906.

September 4, Tuesday ..... Boarding Hall Opens
September 5, Wednesday ..... First Term Begins
November 26–28 ..... Term Examinations
Novemebr 29, Thursday ..... Thanksgiving Day
November 30, Friday 7 P. M. ..... Public Rhetoricals

SECOND TERM.

December 3, Monday ..... Second Term Begins
December 21, Friday ..... Christmas Holdays Begin
December 28, Friday ..... Holidays End

1907.

February 27–March 1 ..... Spring Term Examinations
March 2, Friday ..... Spring Rhetoricals

THIRD TERM.

March 5, Monday ..... Third Term Begins
May 9, 10 and 11 ..... Third Term Examinations
May 11, Friday ..... Anniversary Literary Societies
May 13, Sunday ..... Baccalaurate Sermon
May 14, Monday ..... Senior Preparatory Exercises
May 15, Tuesday ..... Industrial Day
May 16, Wednesday ..... Commencement Day

BELLES LETTRES HALL

SCHEDULE OF BELLS.

WEEKLY.

5:00 A. M.—Rising Bell.

6:00 A. M.—Breakfast.

7:15 A. M.—Warning Bell.

7:25 A. M.—Call Bell.

8:40 A. M.—End First Period.

9:20 A. M.—End Second Period.

10:00 A. M.—End Third Period. Recess Begins.

10:15 A. M.—Closing Recess.

10:50 A. M.—End Fourth Period.

11:30 A. M.—End Fifth Period.

12:10 P. M.—End Sixth Period.

12:45 P. M.—End Seventh Period. Dinner.

1:45 P. M.—Warning Bell for Work.

2:00 P. M.—Work Bell.

4:00 P. M.

5:00 P. M.—Industrial Department Closes.

7:00 P. M.—Study Bell.

10:00 P. M.—Retiring Bell.

SUNDAY.

8:45 A. M.—Warning Bell for Sunday School.

9:15 A. M.—Call Bell.

10:20 A. M.—Sunday School Closes.

10:50 A. M.—Church Bell.

7:00 P. M.—Y. M. C. A. Service Bell.

BRIEF HISTORY.

UNDER THE LEADERSHIP OF JEREMIAH CHAMBERLAIN.

Oakland College was founded in the interest of the Southern Presbyterians in 1828.

The grounds and buildings were sold in 1871, when the State became the purchaser and dedicated the same, under the name of Alcorn University, to the higher education of her colored youth.

In 1878 the Legislature re-organized the school under the name of Alcorn Agricultural and Mechanical College, the better to comply with the Act of Congress of July, 1862, a part of which is here given.

General United States No. 1—Act in Relation to Agricultural Colleges.

(U. S. Statutes, Vol. 12, Chapter 130, page 503.)

BE IT ENACTED BY THE SENATE AND HOUSE OF REPRESENTATIVES OF THE UNITED STATES OF AMERICA IN CONGRESS ASSEMBLED, That there be granted to the several states, for the purpose hereinafter mentioned, an amount of public land to be apportioned to each state, a quantity equal to thirty thousand acres for each Senator and Representative in Congress, to which the states are respectively entitled by the appointment under the census of eighteen hundred and sixty.

SEC. 2. And be it further enacted, That the lands aforesaid, after being surveyed, shall be apportioned to the several states in sections or sub-divisions of sections, not less than one-quarter of a section; x x x said script to be sold by said states and the proceeds therefor applied to the use and purposes prescribed in this Act, and for no other use or purpose whatsoever.

SEC. 4. And be it further enacted, That all money derived from the sale of land aforesaid, by the states to which the lands are apportioned, and from the sales of lands and scripts hereinbefore provided for, shall be invested in stocks of the United States, or of the states, or some other safe stocks yielding not less than five per centum upon the par value of said stocks; and that the moneys so invested shall constitute a perpetual fund, the capital of which shall remain forever indiminished except so far as may be provided for in section fifth of this Act, and the interest of which shall be inviolably appropriated by each state, which may take and claim the benefit of this Act to the endowment, support and maintenance of at least one college where the leading objects shall be, without excluding other scientific and classical studies, and including military tactics, to teach such branches of learning as are related to agricultural and mechanical arts x x x in order to promote the liberal and practical education of the industrial classes in the several pursuits and professions of life.

The Agricultural Land Script Fund, donated by the United States government in this state, had increased to $227,150 when the legislature in 1878, divided it equally between the Agricultural and Mechanical College at Starkville and this College, giving to each $113,575, the interest on which is $6814.50 per annum.

All necessary expenses over and above that amount are provided for by legislative appropriations.

By act of the legislature of 1898, the annual expenses of the College for the next two years have been provided for.

By an Act of Congress known as the New Morrill Bill, which became a law August 30, 1890, and entitled "An Act to apply a portion of the proceeds of the public lands to the more complete endowment and support of the college for the benefit of agriculture and the mechanic arts, established under the provisions of an Act of Congress approved July 2, 1862," each state and territory received $15,000 from the National treasury for the year ending June 30, 1890; $16,000 for the year ending June 30, 1981, etc., upon condition that in states requiring separate schools for white and colored children, an equitable division of the part received by said states shall be made for the agricultural and mechanical education of the children of the two races.

Under the clause of the Act which provides: "That payment of such installment of the appropriation herein made as shall become due to any state before the adjournment of the regular session of the legislature, meeting next after the passage of this Act, shall be made upon the assent of the governor thereof, duly certified to the secretary of the treasury."

Hereafter this institution will probably receive something over $10,000 annually from this source.

As to how the New Morrill Bill Fund may be used, the following, taken from a circular letter sent out by the commissioner of education, dated January, 1892, and addressed to President of Agriculture and the Mechanical Arts, will show:

"In this your attention is respectfully invited to the limitations placed by the Act upon money received, which is to be applied only to instruction in agriculture, the mechanic arts, the English language, and the various branches of mathematical, physical, natural and economic sciences, with special reference to their application in the industries of life and the facilities for such instruction. It is held by the secretary that this language authorizes, besides the payment of salaries, the purchase from this money of apparatus, machinery, text-book, reference books, stock and material used in instructions, or for purposes of illustration in connection with any of the branches enumerated."

GROUNDS AND BUILDINGS.

The lands comprise about three hundred acres used for campus, cultivation and pasture. The school buildings and dormitories are arranged on the campus in the shape of a horse shoe.

There are three recitation buildings—Chapel, Laboratory and Academic Hall. The former is a three story brick building containing a chapel having a seating capacity of at least 1500 persons, six recitation rooms, printing office and pressroom, library and cabinet.

Academic Hall, a two-story frame building, has three recitation rooms downstairs, the upper story being used for dormitory purposes, capable of accommodating about forty or fifty students. There are five other two-story buildings and one three-story, used for dormitory purposes capable of accommodating about 500 students. The Laboratory contains six rooms for natural science studies.

TEACHERS' HOUSES.

Teachers' houses are sixteen in number, including the President's house, a large two-story frame building with brick basement. The others are one-story frame buildings.

CAMPUS HEALTH.

The health of the campus has been most excellent this year, in spite of our crowded condition during the past session.

Our health rate per thousand was lower by ten than the average healht rate of negroes for the states as shown by the last census—that of the campus being four per thousand, while that for the state was 14.3 per thousand. This excellent showing we attribute to at least two things, viz: (1) To the wise action of our Board of Trustees in limiting the number of students attending the college this year to four hundred. (2) To the excellent management of the college hospital and infirmary by the college physician, Dr. J. M. May, and our trained nurse, Mrs. Mary D. Pitts. Too much praise cannot be given the Board of Trustees for the establishment of the above named institution in connection with the college. And it is to be hoped that it may be greatly developed and that it may become a great institution, not only for the college, but for the state.

EXPENSES.

Tuition is free to all Mississippi students, but to those of other states $5.00 per term, in advance is charged.

Doctor's fees per year	$2.50
Board and washing, per month	5.00
Use of furniture per year	1.00
Contingent fund, per year	3.00
Fuel, per year	2.50

The contingent fund will be returned to students turning over their rooms and furniture in good condition.

Many students by working at the college pay about one-fourth of their expenses; others pay more.

Students entering must be able to pay the matriculation fee of $9.00 and first month's board in advance.

ACADEMIC HALL

THE STUDENT'S NECESSARY OUTFIT.

We want to emphasize, if possible, more strongly than ever, that, in order that health, cheerfulness and ability to perform well the duties which college life imposes, each student must have sufficient clothing and bedding to keep confortable and clean.

To that end each student, male and female, is required to provide himself or herself with at least two pillow cases, two sheets, two quilts or or their equivalent, two towels, one pillow, tooth brush, and such other toilet articles are as necessary to the end in view.

A college uniform of blue percale for the female students, and of regulation grey for the male students, of material similar to that worn by the United States clerks in the postal service, has been adopted, with caps. And no student will hereafter be regularly matriculated who has failed to provide himself with each and every one of the aritcles above named.

THE BOARDING DEPARTMENT

Is run on the mess system; each student paying $5.00 per month for board and washing. This department is conducted in a commodius frame building costing $3000.00, and capable of seating a thousand persons or more.

A COLLEGE POSTOFFICE

Has at last been established on the college grounds, and is known as Alcorn, Claiborne County, Miss.

Students coming to the college should come either to Lorman by railroad, nine miles distant from College, where they will be met by College wagons on Tuesdays and Fridays, or come by boat to Rodney, Miss., four miles distant from the college.

All express matter should be sent to Lorman, Jefferson County, Miss., in care Alcorn College.

Telegraph office, Lorman, Miss.

Long distance telephone connection at the college.

COURSE OF STUDY.

GRADED COURSE.

No person will be admitted as a student in this course who cannot pass an examination entitling him to enter Fourth Reader, Elementary Arithmetic to fractions, Elementary Geography, Advanced Spelling and Grammar.

This is a three years' course, so arranged that each student in this course can take a trade in some one of the Industries. All students in this course must enter upon the learning of some trade under same requirements as classroom work. Such persons as fail to choose for themselves will be assigned to the industry for which they seem most fitted.

GRADE C.

First Term.

Fourth Reader	Swinton	Agricultural Lectures	Weekly
Elementary Arithmetic	Robinson	Mechanics	In Shops
Manual of Geography	Maury	Vocal Music	Twice a Week
Elementary Grammar	Harvey	Penmanship	Twice a Week
Spelling (Word Lesson)	Reed	Rhetoricals	Weekly

Second Term.

Fourth Reader	Swinton	Agricultural Lectures	Weekly
Elementary Arithmetic	Robinson	Mechanics	In Shops
Manual of Geography	Maury	Vocal Music	Twice a Week
Elementary Grammar	Harvey	Penmanship	Twice a Week
Spelling (Word Lesson)	Reed	Rhetoricals	Weekly

Third Term.

Fourth Reader	Swinton	Mechanics	In Shops
Elementary Arithmetic	Robinton	Vocal Music	Twice a Week
Manual of Geography	Maury	Penmanship	Twice a Week
Elementary Grammar	Harvey	Rhetoricals	Weekly
Agricultural Lectures	Weekly	Spelling	Reed

GRADE B.

First Term.

Fifth Reader	Swinton	Lecture	With Farm Work
Geography and Map Drawing	Maury	Mechanics	Theory and Practice
New Practical Arithmetic, Elementary	Harvey	Vocal Music and Penmanship	Twice a Week
Spelling (Word Lessons)	Reed	Rhetoricals	Weekly

Second Term.

Pedagogy ..... Hewitt
Vocal Music .....Twice a Week
Theory of Chemistry
Rhetoricals ..... Weekly
Agriculture and Mechanics
During the year
Agriculture ..... Gully
Latin.....

COLLEGE SCIENTIFIC COURSE.

Students who complete the Preparatory Course, or its equivalent, will be admitted to this course. In this course, in addition to studies named below, each student must deliver from memory in chapel, at least one original composition annually.

FRESHMAN CLASS.

First Term.

Theory of Chemistry .....
Zoology ..... Steele
Higher Algebra ..... Robinson
Ancient History ..... Barnes
Veterinary Hygeine ..... Hopkins
Rhetoricals and Music during the year.

Second Term.

Commercial Law ..... Burkett
Geometry ..... Robinson
Mediaeval History ..... Barnes
Botany ..... Gray's Lessons
Veterinary Hygiene ..... Hopkins

Third Term.

Commercial Law ..... Burkett
Botany ..... Gray's Lessons
Geometry ..... Robinson
Modern History ..... Barnes
Mechanical Drawing ..... Mahans
Rhetoricals and Music during the year.

SOPHOMORE.

First Term.

Studies in Civics ..... McCleary
Physics ..... Coleman's
Rhetoric ..... Quackenboss
Geometry ..... Robinson
Rhetoricals and Vocal Music during the year.

Second Term.

Physics ..... Coleman's
Rhetoric ..... Quackenboss
Civics ..... McCleary
Horticulture ..... Bailey
Vocal Music and Rhetoricals during the year.

Third Term.

Conic Sections ..... Robinson
English History ..... Thalheimer

English Literature ..... Pointer
Insects Injurious to Farm and Garden..... Reed
Rhetoricals and Vocal Music during the year.

JUNIOR.

First Term.

International Law ..... Woolsey
Mental Science ..... Haven
Trigonometry ..... Robinson
English Literature ..... Painter
Breeds of Live Stock ..... Curtis

Second Term.

International Law ..... Woolsey
Mental Science ..... Haven
Political Economy ..... Laughlin
Analytical Geometry ..... Robinson
Inorganic Chemistry ..... Peters

Third Term.

Mental Science ..... A. Bain
Geology ..... Farr
Political Economy ..... Laughlin
Inorganic Chemistry ..... Peters
Vocal Music and Rhetoricals during the year.

SENIOR.

First Term.

Logic ..... Jevon
Surveying ..... Robinson
Cattle Feeding ..... Almsby
Organic Chemistry and Laboratory work..... Peters

Second Term.

Logic ..... Jevon
Moral Science ..... Peabody
Analytical Chemistry and Laboratory work..... Appleton
Physics of Agriculture..... King

Third Term.

How Crops Feed ..... Johnson
Physics of Agriculture ..... King
Moral Science ..... Peabody
Qualitative Chemistry with Laboratory work..... Appleton

Exercises preparatory to commencement Orations during the year.

Degree of Bachelor of Science will be conferred upon all who complete the above course of study.

DEPARTMENT OF SCIENCE.

The design of this department is to furnish a general knowledge of all the subjects usually embraced in a scientific course to encourage research and original investigation, and awaken a love for labor in all vocations.

The course emblaces the principal subjects of natural and physical sciences. The subject of Chemistry is greatly emphasized since it serves the most practical end respecting the leading features of the college—agriculture. The course is so arranged as to be equivalent to three full years, the Normal or College Preparatory students having two terms during the last year of that course. The college Juniors have laboratory lectures during the last term, while the Senior College class devotes one hour to the recitations and one hour to general laboratory work the entire year.

Physics is pursued with the view that among other things it may be of practical benefit to those pursuing the studies of manual training. A new chemical laboratory has been built where ample opportunity and means will be supplied to do original work.

DEPARTMENT OF AGRICULTURE.

It is the aim of this department to give such practical and theoretical instruction to all students of Agriculture as will make them intelligent on all the workings of diversified farming.

Instruction in this department is not limited to the class room. We have three hundred acres of land devoted to field, campus, garden and pastures, from which the students gain much knowledge of the theory taught.

The department in all its branches is under the supervision of the instructor of Agriculture, and affords an opportunity to illustrate by actual practice the theory of Agriculture.

GRADES C AND B.

During the first and second years of the Industrial Course lectures will be given on practical and general farming.

GRADE A, OR THIRD YEAR.

Elementary Text-book on Agriculture during the year. This will be supplemented by lectures on composition of matter origin and formation of soil, composition of plants, plant food in the soil, preparing the soil for crops, rotation of crops, farm stock, and how to improve common stock.

SENIOR YEAR.

First Term.

CATTLE FEEDING—In this study will be treated the general laws of animal nutritition, including composition of animal body process of digestion;

the production of flesh and the composition of and digestibility of feeding stuffs, the feeding of animals; considering the kind and quality, for the different purposes for which the animal is to be used.

Third Term.

PHYSICS OF AGRICULTURE—In this is treated the chemical composition of plants, with reference to the ash and volatile parts, the structure of plants, offices of their organs, and life of plants, construction of farm buildings, silows, drainage and soils.

SPECIAL COURSE IN AGRICULTURE.

First Year.

Elements of Agriculture, Chemistry (First Book), Botany, Practical Farming.

Second Year.

Botany, Agricultural Chemistry, Insects Injurious to Farm and Garden Horticulture, Practical Farming.

How crops Grow, Cattle Feeding, Breeds of Live Stock, Agricultural Chemistry, Practical Farming.

Students completing the above course will be given a diploma to that effect.

PRACTICAL HELPS.

Students get practical knowledge and experience by working on the farm, caring for stock, etc. Also practical lessons are given on hill-side ditching, drainage, circling of land, marking, spaying and castrating.

There are on the farm ten mules, three wagons, a herd of Devon cattle, a lot of Poland-China hogs, and quite a supply of the most improved agricultural implements.

The farm produces corn, oats, millet, peas, Irish and sweet potatoes, orchard and garden vegetables.

CARPENTRY DEPARTMENT.

The Carpentry Department occupies a commodious building 49x90 feet. It is well organized and equipped and is doing a very effective work. Besides a full supply of work benches and sets of tools for same, the department is supplied with a turning lathe, circular rip saw, scroll saw, two mortising and boring machines, etc.

Students are taught to use above machines, but special attention is given to hand work. It is not undertaken to turn out in three years "master machinists," but to prepare thoroughly trained carpenters for all ordinary work.

CHEMICAL LABORATORY

The students are divided into squads and classes, and each class receives instruction one day in the week. The squads do practical work when qualified, for which each student receives from three to eight cents per hour, according to his proficiency.

Students completing this course will receive a certificate to that effect.

This department will be fully equipped to do all kinds of furniture work, when the new Industiral Hall is completed.

COURSE OF STUDY.

First Year.

Instruction in the use and care of ordinary wood-working tools, mallets, chisels, hammer, saw, tri-square, dividers, etc., sand-papering and polishing

---

HORTICULTURE.

H. T. TANNER, Instructor.

The students will have the care and management of an eight acre orchard planted in orchard fruits, small fruits and grapes, thus giving them theoretical and practical work in horticulture. Pruning, grafting, spraying, gathering and marketing of fruits will be learned with the work.

Text—"The Nursery Book" (L. H. Bailey).

MARKET GARDENING.

Ten acres of fine trucking land have been set apart for the raising of vegetables, such as are needed at the College, and for shipping to near-by towns and northern markets. Students do all this work and the most practical and profitable experience is acquired in the growing of crops, gardening under glass and shipping the products. Also practical lessons are given on hill-side ditching, draining, terracing, circling land, landscaping and making of fertilizers.

Text—"The Kitchen Garden" (L. H. Bailey).

Students are given instruction daily in this department and are expected to finish this course in two years. A certificate will be given to students finishing the course,

---

DAIRYING.

We have a herd of Devon and Short-horn breeds, which will be displaced by registered Jersey stock. Students have the care of stock, barn and dairy. Cleanly methods are taught in the handling of milk and its products, and care of barn.

In connection with dairying, we have a drove of Durock Jersey and Poland China hogs. Students are given practical work of feeding, castrating spaying and marking them.

COURSE OF STUDY.

SOPHOMORE YEAR.

Second Term.

HORTICULTURE—Instruction will be given in location of garden and orchard, drainage of garden, making and management of hot-beds, cold frames, care of green house, different methods of propagating plants, propagation and culture of forest trees.

Third Term.

Insects injurious to farm and garden. Instruction will be given concerning those insects injurious to Indian corn, garden vegetables, cereals, fruits tree, small fruits and beneficial insects, etc.

BLACKSMITHING DEPARTMENT.

This department embraces blacksmithing, wheelwrighting and horse shoeing, and occupies a room 60x36 feet for the blacksmithing department, and a room 38x24 for the wheelwrighting department. There are seven forges in the blacksmithing department, with a set of tools for each. In the wheelwrighting department there are 4 work-benches and 6 sets of tools. The tools for horseshoeing are kept in this department. These departments are well organized and equipped and aim to do very effective work and give a thorough training.

COURSE OF STUDY.

First Year.

Cleanliness and neatness; preparing forges and tools for use; the use of tools.

Second Year.

Preparing horses feet for shoes; upsetting tools; general repairing; welding; wagon-making, etc.

Third Year.

Tempering and annealing; setting dies; bracing, soldering, filing and setting up new work.

Fourth Year.

Preparing bills; estimating cost of work; axle setting; grading timbers; carriage-making and finished horse-shoeing.

Owing to the number of students and the scarcity of room, the students who work in this department are divided into sections, one section working one day in each week, and as many evenings in the week as the work of the department demands.

Those who complete the course as prescribed above will be awarded a certificate of proficiency.

The course has heretofore consisted of three years; but necessity requires the addition of another year.

DEPARTMENT OF PAINTING.

COURSE OF STUDY.

First Year.

Names, uses and care of brushes and tools; arrangement and care of brushes and tools; arrangement and care of shop; roof painting and use of wall brushes on weather-boarding; applying priming and second coats; practice in trimming, sand-papering and applying lead coats.

Second Year.

Puttying and applying rough stuff, rubbing rough stuff with rubbing stone and water, lessons in mixing colors, interior work with inside colors, use of ladders and swing stage.

Third Year.

Further practice in applying second and third coats to exterior walls, complete course in farm-wagon painting, applying colors to buggies, and first coat of varnish, interior work, imitating wainscoating, graining and staining, hard-oiling and first lessons in frescoeing; how to make different putties, striping carriages, cutting glass and glazing; frosting and staining glass; rubbing varnish with felt and pumice stone; further work in exterior decorations, advanced lessons in sign-writing, gilding and glass embossing.

Fourth Year.

Applying finishing varnish to carriages; fresco painting continued; practice in striping and ornamenting; stencil-making; bronzing on wood; iron and plaster cast; imitating marble; painting in distemper; talks on cleanliness in working and manufacture of pigments.

DEPARTMENT OF MATHEMATICS.

To thoroughly complete this course requires a period of eight years. No student can enter one of the grades in the preparatory department until he has done work to fractions in the Rudiment of Arithmetic, and passed a satisfactory examination, giving evidence of same. The Arithmetics from the Rudiments to the higher are taught four years; Algebra (Elementary and Higher) eighteen months or two years; Geometry (Plane and Solid) nine months; conic Sections, Trigonometry, Analytical Geometry and Plane Surveying three months each.

The subjects are taught with a view to practical application.

DEPARTMENT OF ENGLISH.

J. C. Bullen, Professor.

The aim of this department is to give to the students a thorough mastery of the mother tongue in order that he may the better be able to comprehend the instructions given in the other departments.

As the name of this department implies, it covers the studies that pertain to the English language. It seeks to prepare the student by careful and constant training in the use of the English sentence for the complex duties of life.

The course in English of necessity lies at the base of all other instruction. The English work which is common to all courses consists of the story of the structure of the English language and literature, and exercises are given in composition and thesis writing. In these studies our aim has been to make the language clear and simple; to approach each point through exercises and illustrations, so that the student may learn by doing.

In Literature, Epic Poetry, Horoic Poetry, Prose, Fiction, Oratory and Criticism are each given a section. Special and personal attention devoted to these sections.

DEPARTMENT OF PHYSICAL SCIENCE, HISTORY, CIVICS AND MORAL SCIENCE.

This work is taken up as follows: Senior preparatory class, Physical Science; Seniors, Moral Philosophy; A grade, United States History; Junior preparatory class, Mississippi History and Elements of Civics; Freshman class, General History; Sophomore class, Higher Civics and History of England; General and United States Histories cover a period of nine months; Mississippi History, a period of six months, or first and second terms; History of England, three months, or last term; Moral Science, six months, or second and third terms; Elements of Civics, three months, or last term; Higher Civics, six months, or first and second terms; Physical Science, three months of first term.

PHYSICAL SCIENCE.

The chief aim is to show that the climatic agents not only are now the most important and influential, but they have been so during all past geological ages. That the special province of Physical Geography is the investigation of climate and modifications.

That the great agents are the air, rain, frosts, springs, brooks, rivers, glaciers, icebergs, mountains and sea.

That it is climate, and climate alone, that determines mainly the character of all vegetable and animal life.

The student is urged to never rest until he gets at the reason for what he sees about him.

POWER INDUSTRIAL HALL

GENERAL HISTORY.

In the study of General History careful attention is paid to the continuity and unity of historical movements and to the nature and operation of the great forces which have shaped its course. To this end stress is laid upon those periods of history that have made or marked important eras of progress rather than upon mere study of chronological order. This will serve as a guide to the students' thinking and reading; and lays a broad foundation for his latter studies in Civics and Moral Science.

HISTORIES OF ENGLAND, MISSISSIPPI AND THE UNITED STATES.

The objects of these courses are to fix in the mind the main facts of history; study their meaning, relations, laws and lesson; train the memory, reason, imagination and sympathies; help the student to understand references in current literature; comprehend the origin and development of existing states, peoples and institutions—what it may be and what it should be—the when, why, the ought, and the how. The work consists of lectures, text-book study, reference reading, discussions and original research.

CIVICS.

The science of citizenship is taught; law and government, municipal' state and national; their origin and development; what they are now and what they ought to be, lectures with text-book work, analysis and discussions. The students choose selectmen, governor, supreme court, etc., hold town meetings, organize as a state house of representatives; the constitutionality of enactments is tried before the supreme court. Parliamentary usage is followed as far as practicable.

MORAL SCIENCE.

This subject is studied by the senior class for two terms or six months. The aim of the work is thoroughly to consider the rise and development of philosophical conceptions, and to trace, whenever possible, their connection with political and social movements. The student consults the writings of various authors, and brings reports of his readings to the class-room for criticism. Special references: Bain, Haven and Dewey.

The schedule of study is as follows: Conduct, the laws of duty, moral obligation and ethical judgments are treated as the activities and normal processes of the social self. In this manner it is believed the subject becomes both vital and practical.

DEPARTMENT OF SHOE-MAKING AND LEATHER INDUSTRIES.

Formerly known as the Shoe Department; was added to the College in 1894.

It was well organized and equipped with a full supply of tools and machines.

This department is quartered on the second floor of the Power Industrial Hall, which is very comfortable and well ventilated, having nine large windows and a skylight which affords that bright light so necessary to leather workers.

The special feature of this department is the making and repairing of shoes; but students are given instruction daily in the making of harness, leather bags, mail pouches, etc., according to demand for serviceable things in the leather line.

Students in this department are classed into teams of four each, with an advanced student as leader, all being under the general instruction and supervision of instructor in charge of the department.

COURSE OF STUDY.

First Year.

Learning to take care of shop and tools, make ends, sew traces, straps; sew straight seams on shoes, nail on halfsoles; finish or polish fine repairing.

Second Year.

Putting on patches (both sewed and cemented); half-soling, fine work (nailed and sewed); receiving instruction and practice in sewing on welts, measuring, repairing old heels and building new ones.

Third Year.

Instructions in repairing continued, doing first class repairing and finishing fine new work.

Instruction and practice given in cutting stock out of the skin to advantage, classing leather, rounding up in-soles and out-soles, and lasting. Instructions also given in estimating cost of material, measuring feet, and fitting up lasts.

No work leaves the shop without having been inspected by instructor in charge.

Students finishing this course to the satisfaction of instructor in charge will be given a certificate of proficiency.

NURSE TRAINING SCHOOL.

ESTABLISHED IN 1903—OPENED IN 1904.

The College operates an infirmary and Nurse-training school under the general supervision of the college physician, and under the immediate charge of a trained nurse.

Applicants for training in this department are desired who can give their whole time to the work.

Persons not students or officers of the College will be charged 50 cents per day for their keep.

From three to six cents perhour will be paid those who serve in this department; and as many as five at least may make the whole, or the greater part of their expenses in school by working regularly in this department.

COURSE OF STUDY.

First Year.

General Nursing, Anatomy and Physiology, Practice and Dispensary Work.

Second Year.

Theory of Nursing, Anatomy and Phyisology, Materia Medica, Dispensary work and practice.

Third Year.

Obstetrics, Materia Medica, Practice Nursing.

ROLL OF STUDENTS 1905-06.

Second Year Class.

BILTHELLA SENSBY, ROSA MAY, LULA B. MOORE.

First Year Class.

MARY R. ROBERSON, WILLIE D. HARRISON,
DELLA HARRISON, JIMMIE REAGAN.

For information concerning this feature of the college work apply to the President.

SEWING AND DRESS-MAKING DEPARTMENT.

M. M. HAZLETT, Instructress.

This department provides a comprehensive course of study in those branches which are related to healthful and appropriate clothing of the body, and to household decoration. Such study leads to healthful living and to the cultivation of good taste and wise economy; and also abundantly supplements the education acquired in the other departments of the college.

The courses now given are:

Sewing, Dress-making, Art-Needlework, Costume Designing, and Millinery.

SEWING.

First Grade.

Exercises given in basting, stitching, overcasting, hemming, gathering, and button-holing. Also exerciess in machine sewing and cutting and making of ladies' underwear.

Second Grade.

Exercises in darning on stock-knit and cassimere, patching; drafting, cutting and making of white underskirts; also exercises in feather stitching, and making underwaists from pattern.

Third Grade.

The making of dainty lingerie, including fancy muslin and flannel underskirts, night dresses and dressing sacques.

DRESS MAKING.

First Year.

Drafting, cutting, fitting and making unlined waists and skirts, and drafting waists with skirts.

Second Year.

Drafting and making princess gowns, study of woolen textiles, cutting and making "tailor made" jackets and skirts.

Each girl member of this department must provide her own thimble, thread, needles, tracing wheel, tape line and material for both dress-making and underwear.

DEPARTMENT OF LAUNDERING.

A laundry department has been established in connection with the institution, to be under a competent instructor, wherein our girls will be taught the art of competent hand laundering. This department will fill a long-felt want in the thorough equipment of our girls for the duties of life; as it not only fits them for fulfilling more completely the demands to be made upon them as daughters, sisters, wives, and mothers, but it gives them a substantial weapon with which to become bread winners for themselves, and of greater domestic value to their state.

NEW DINING HALL

ALUMNI.

1882.

LAFAYETTE MURPHY.
A. J. GOSSIN.
A. D. SNODGRASS, Teacher and Minister.....Port Gibson, Miss.

DISCIPLINE.

RULES GOVERNING STUDENTS.

For admission to the College the applicant must be at least 15 years of age, and if from a chartered institution, he must present a certificate of honorable dismission.

No student having any contagious disease will be admitted to the College.

Each student when he enters the College, shall deliver to the President all arms and deadly weapons of any description which may be in his possession, and subscribe in a book kept for that purpose, the following matriculation pledge:

"Being now about to enter as a student of Alcorn A. & M. College, I do hereby acknowledge my obligation and bind myself to obey all its laws and regulations. And I pledge myself, on honor, that as long as I am a member of the College during term time, or while I remain at the College during vacation, I will not have in my possession any deadly weapon. And I do further pledge myself on honor, that I will not join or form any connection with, directly or indirectly any secret club, society, fraternity, or other organization composed in whole or in part of students of the College, or attend the meetings of or wear the badge of any such organization. And I do further pledge myself on honor, that I will not during my continuance as a student of the College, indulge in any vinous, spiritous, or alcoholic drinks; and will not bring or accept if brought by others any such liquor upon the premises of the institution. And I do further pledge myself, on honor, that I will not treat with disrespect, by shouting or otherwise, any applicant for admission to the College, and will not engage in 'hazing' or other meltreatment of a student lately admitted into the institution."

Any student who shall wilfully violate the foregoing matriculation pledge shall be dismissed.

As far as possible the school is made a home for those who attend. Not only their intellectual but also their social, moral and industrial culture receive careful attention.

All pupils are required to appear for instruction and to work in some one of the industrial departments.

No pupil will be retained whose moral character and influence are bad and none whose work fails to show progress and purpose.

Cleanliness of person, rooms, buildings and premises and decorous behavior are required at all times. To further these ends the use of liquor or tobacco in any form, of cards or any form of gambling is strictly forbidden.

Each student's contingent fund will be held to insure cleanliness and preservation of buildings and furniture and tidiness of premises.

COMMONS.

Every student occupying the dormitory shall take his meals at the dining Hall unless excused by the President.

Each student shall have his particular place at the table, and such place shall not be changed without the permission of the steward of the Hall.

All unnecessary or loud talking is prohibited. The carvers only shall call on the waiters.

Wasting or taking from the Dining Hall provisions or furniture is strictly prohibited.

The steward of the Hall shall see that every student leaves the Hall at the command.

As obedience and subordination are essential to the purpose of the College any student who shall disobey a legal command of the President or any professor or instructor or other superior officer, or behave himself in a refractory or disrespectful manner to the constituted authorities of the College, shall be dismissed or less severely punished according to the nature of the offense.

Any student who has been dismissed from the College must leave the premises at once. But by satisfactory arrangement with the President a stay of 24 hours or longer may be permitted.

All official communications to the Board of Trustees from any person or persons connected with the College, except such reports as are required to be made directly to the Board, shall be made through the President, whose duty it shall be to forward them to the Board with such remarks as he may think proper.

Students must attend Sunday School and preaching services on Sunday.

Students absenting themselves from class for three consecutive days without excuse beforehand, except in sickness or other unavoidable reasons, will not be allowed to go on with their classes without permission from the President.

Students must not leave the room during study hours, except by permission from some teacher or monitor.

Students must not leave the campus except for short walks without permission from some teacher.

Students are required to extinguish their lights and retire at 10:15 P. M.

Students must not absent themselves from Chapel exercises or class recitation without permission or by reason of unavoidable circumstances. Industrial classes are regarded the same as other classes. Tardiness shall be considered as an absence. In attendance upon all exercises students must be in their places when the bell ceases to ring.

Students cannot remain longer than two days in their grades without all necessary books for that grade except with special arrangements to that effect.

Any other conduct not prohibited above which is contrary to the rules governing gentlemen and to the dignity of a student of Alcorn A. & M. College is forbidden. Only those persons are desired as students who are willing to practice the Christian virtues, and who are earnest and conscientious about the discharge of their duties.

For the known violation of any of the above rules, students will be punished by certain penalties or suspended or expelled as may be deemed best in the particular case.

TEMPORARY REGULATIONS.

The President and Faculty are authorized to prescribe temporarily such regulations for the government of the College and discipline of students as experience may show to be necessary, which will be reported to the Board of Trustees at their next meeting and when approved by them shall be permanent.

LABOR RULES.

Two bells call students to work. At tap of second bell all students not at their posts will be marked absent.

Labor is compulsory with students unless sick.

All students not on the sick list are required to report regularly for work at the ringing of the work bell.

Students wishing to be excused from labor for the day must apply to the President or officer in charge of the department to which they are assigned, giving reason for being excused.

Labor is required on work days except Saturday, weather permitting. Students wishing to work extra will be furnished work on Saturday during the larger portion of the year.

Students, when placed under the charge of any student acting as foreman will be expected to work in accordance with his orders. The acting foreman will be held responsible for the work and conduct of each student in his detail while in the field or shops; will be required to take the time and mark the standing of the work performed and report any misconduct or non-observance of the labor rules to the officer in charge of labor.

Singing, shouting, interfering with the other students or disrespect shown to the acting foreman or people passing, are strictly prohibited.

The number of hours required each day may be varied from one and one-half to three and one-half, and the time of day to commence work changed at the discretion of the Faculty.

COMPENSATION.

Compensation for labor will be rated in proportion to work performed eight cents per hour being the maximum rate paid, and this only for faithful labor.

The standing or value of each day's work will be marked as in class recitation on a scale of one hundred. Students making an average of eighty for the month will receive the maximum wages; less than eighty the wages will be rated proportionately. The student foreman will be selected from those who make the highest work standing for the previous term.

No time will be allowed for any work not assigned by an authorized officer, or to any student who does not report to the acting foreman or other officer at the close of the day's work.

TOOLS.

Students are prohibited from taking any tool from the shops without giving the number of the same to the student who has charge of the tools. All tools will remain charged until returned.

Each student will be held responsible for the return, in good order, of all tools when taken out by himself, and will be fined thirty minutes time to be deducted from his work account, unless the tools are returned at the close of the day's work, cleaned and hung in their place. Students will be required to pay for tools lost or carelessly broken.

EXAMINATIONS AND GRADING.

Written examinations are conducted at the end of each month and the end of each term. The results of these examinations, together with the student's daily marks for the term or month divided by two constitute his standing for such month or term.

To hold their grades students must make a general average of 75 per cent., and not less than 50 per cent. on any branch of the grade to which they belong.

The grading committee will hereafter sit every Friday evening from 2 till 5 o'clock, and every Saturday morning from 8 to 12 o'clock.

Applicants for any grade must be able to pass a written examination on all the branches of the next lower grade. No student will be permitted to retain his class who has not been present with his class at least two-thirds of the school year.

After regularly matriculating, no student, except on recommendation of the college physician, will be permitted to go home or elsewhere except at such times as the Faculty may designate unless the parent or guardian shall have explicitly directed the President to grant leave.

All applications for leave to go home or elsewhere must be for a specified time. And any student who is on leave of absence, and cannot return at expiration of the time granted, must notify the President, giving reasons therefor, asking for an extension of the time, and designating the date on which he hopes to return.

Money for board and washing must be paid monthly in advance; and any student failing to pay his bills at beginning of the month will be charged at the rate of 20 cents per day instead of at the monthly rate of 16 2-3 cents per day. Students not having paid by the 15th will be deprived of the privileges of the school.

CHRISTIAN WORSHIP.

The College aims to purify the heart and make right the spirit as well as to develop the mind. To this end each day's work is begun with devotional exercises. Sunday School and preaching every Sunday morning; prayer meeting Sunday and Wednesday nights. The Young Men's Christian Association, the Young Women's Christian Association meets monthly on Sunday evening. These societies do much good. Students must attend all exercises established by the College, and they are invited to attend the other voluntary religious services.

LITERARY SOCIETIES.

There are connected with the College three Literary Societies: The Lyceum, the Forum, and Literary Gem, over each of which a member of the Faculty acts as critic. These societies give opportunities for the preparation and delivery of essays, declamations, orations, etc.

LIBRARY.

The College has a well selected library of about 2,700 volumes, besides numerous pamphlets and magazines. The library, which is used as a reading room also, is supplied well with some of the best weeklies, dailies and monthlies in the country. The books afford information upon almost every subject. Additions are continually being made. A girls' reading room has been established with Mrs. Aray in charge.

Youths under 15 years of age will not be admitted to the College.

Persons in bad health are not desired as students.

Students should provide themselves with umbrella, overshoes, overcoats, working clothes to keep themselves comfortable.

Parents are advised not to send boxes of food to students.

PROGRAMME

FOR COMMENCEMENT WEEK, 1904.

MAY 12 AND 15
Friday and Monday Examinations.

MAY 12, FRIDAY
Public Rhetoricals Exercise of Literary Societies.

MAY 14, SUNDAY
Sunday School Anniversary, 10 o'clock A. M.
Baccalaureate Sermon, 2:30 P. M., by W. F. WATERS,
New Orleans, La.
Annual Meeting Y. M. C. A., 7:30 o'clock P. M.

MAY 15, MONDAY
Senior Preparatory Exhibition.

MAY 16, TUESDAY
Industrial Exercises.

MAY 17, WEDNESDAY
Trustees' Meeting.

MAY 18, THURSDAY
Thirty-First Annual Commencement
Annual Address by Rev. Mc. B. Mason, D. D., Cincinnatti.

3 0112 105857210
